**20+ Years of Transforming Finance.** People, Process, Data and Systems

Work with Oracle's largest, most complex customers

- Building and messaging the case for change
- Roadmaps that deliver value and align to culture
- Operating models that sustain adoption and deliver speed

## AI is a developing field, but is not new

 $\bigcirc$ 

# Al Empowers Finance: Use Cases

Supporting More Platforms with Content

Modeling Unfamiliar Revenue Streams Competing with OTT for Ad Budgets

Rethinking Backoffice Efficiency and Speed

Finding Winning ROI in Content Making Fact-Based Content Investments

## Supporting More Platforms with Content

Modeling Unfamiliar Revenue Streams Model your Content Archive as a new revenue stream

- Compare to 'like' products and data sets
- Discover the business drivers, better KPI's
- □ Challenge your decision makers
  - Weed out forecast bias by adopting predict-andadjust process.
- □ Improve Accuracy
  - Get an advance look at target/plan variances. React before the period end

Machine Learning Predictive Forecasting

## Competing with OTT for Ad Budgets

Rethinking Backoffice Efficiency and Speed Automate Matching and Reclass

- Auto-match and suggest matches to in real time
- Reclass entries based on prediction and predefined mapping

Predict Accruals and Cost Overruns

- Review predicted variances, take action earlier
- Get an advance look at the close

Narrate the Numbers: Build the story behind the numbers with narration

Machine Learning Predictive Accrual / Matching

Natural Language

## Finding Winning ROI in Content

Compare New Projects to like Content, Predict ROI's

- Revenue Streams and Timelines
- Costs and Resource Requirements
- Talent and Branding

### □ Identify Project Resources and Teams

- Match project requirements to skill sets, experience, performance and availability.
- Identify resources missing from project

Machine Learning Predictive Project Performance

Natural Language

# Adopting AI for Finance

### **Define Criteria for Success**

Hard metrics + Soft metrics Measurable results + Employee adoption

### **Establish Governance and Security**

Meet privacy and security risks up front Enable AI in the context of ERP and EPM systems

### Consider your Workforce

Real concerns from employees regarding the impact on their roles Showcase adopters and advocates as ahead of the curve

> Artificial Intelligence and the Future of Finance, Feb 2024. Hari Sankar, Group Vice President, Product Management at Oracle
